

NATIONAL ROAD EXHIBIT

An exhibit on the Historic National Road is being displayed in June in the Hebron Municipal Complex.

This is a free exhibit of interpretive display panels about the road. Hebron partnered with the Licking County Yard Sale Committee to make this educational display available.

This is an excellent opportunity for people to learn about the history of the National Road. In addition to having fun and traveling the road for yard sales, the Licking County National Road Yard Sale Committee is dedicated to educating people about the history of this great American byway.

The committee and village encourage people visiting the village offices or the library to stop in and see the panels. It is open during normal business hours Mondays through Fridays.
